Inhalation

Remove victim to fresh air and keep at rest in a comfortable for breathing. Do not block the access of air. Loosen tightly

Skin contact	fitting pieces of clothing, such as a collar, tie, belt, or waistband. If breathing is difficult, breathing, qualified personnel should give oxygen. In case of respiratory arrest, use artificial respiration and seek medical advice immediately. Change contaminated clothing. After contact with skin, wash with plenty of water and soap for 10 minutes. If skin irritation or rash occurs get medical help.
Eye contact	Rinse your eyes, flush eyes with plenty of water for 15 minutes in a well open eye slit. Remove contact lenses if you use them and if it is easy to do. Continue rinsing eyes. If irritation persists, consult your doctor.
Ingestion	Rinse your mouth, drink 1.5-2 cups of warm water with activated charcoal, saline laxative. Do not induce vomiting unless required to do so by medical personnel.
