

Plasmics extruder with **4 drive gears** allowing more control in grip and extrusion

Technical Specification

Dimensions

42x42x24 (without stepper)

42x42x44 (with stepper)

Gear ratio

1:6,54

Weight

76g (without stepper)

170g (with stepper)

Max Environment operating temperature

70°C

4 Gears

Quality Filament control and extrusion
