

APRINTAPRO

# PrintaKit

THE COMPLETE APPROACH TO IMPROVE YOUR 3D PRINTING EXPERIENCE.

PrintaKit is a 37-piece toolkit specially designed for 3D printers, including all necessary tools to maintain your printer and post-process your print. In addition to the well selected assortment, you have enough space for further accessories in this robust case.

## INHALT:

PrintaFix Basic 100ml: Adhesion spray for heated and non-heated printbeds, no more warping

LONG NOSE PLIER: Long pointed pliers with hardened steel jaws, the pliers are perfect for fine and precise work

ELECTRIC SIDE CUTTER: made out of hardened steel, ideal for removing stubborn support structures and cutting filament.

PRECISION KNIFE / including 5 spare blades: knurled aluminum handle, easy to handle. For delicate and demanding work.

SHARPENED FLEXIBLE SPATULA: The spatula has been specially produced for 3D printing, it has a robust, non-slip and ergonomic plastic handle) The blade is made of flexible stainless steel and has a sharpened front edge.

ALLEN KEY SET: 9 parts with satin chrome-plated surface and ball head, sizes of 1.5/2/2,5/3/4/5/6/8/10 mm

GLASS SCRAPER incl. 3 spare blades: The scraper is perfect for removing prints from the printing surface without damaging the print.

TWEEZERS with straight tip: Slim tweezer with antistatic coating for precise and fine work.

7MM HEX WRENCH: to change all nozzles with standard size

5 X CLEANING NEEDLES for the nozzle: This needle is suitable for cleaning clogged nozzles. Heat the nozzle and unload the filament. Insert the needle around 1 to 3cm into the hot nozzle.

SAFETY GOGGLES: To protect your eyes from flying plastic splinters, which can break away during finishing

GLOVES

5 X CALIBRATION CARD: For the perfect calibration of the distance between the printing surface and the nozzle.
